

# Beautiful

Stanfour

In the black October Sky  
Looking for a glimpse of light  
Wake up the sunshine, sunshine  
A world of statues made of stone  
Breaking up the frozen cold  
Time to say goodbye, goodbye

When there's nowhere to turn  
When there's nowhere to go  
Together we're beating, heart and soul  
And if we are apart  
You'll never know  
Together we are beautiful

Who we are  
What we are  
Together we are beautiful  
All we are  
Where we are  
Together we are beautiful

Ooooh, oooh, oooh  
Together we are beautiful  
Ooooh, oooh, oooh

We are searching for a place  
Looking for a saving grace  
It's gonna be alright, alright  
When the world's getting dim  
A new day will begin  
We are united with one soul

And if we are apart  
You'll never know  
Together we are beautiful

Who we are  
What we are  
Together we are beautiful  
All we are  
Where we are  
Together we are beautiful

Ooooh, oooh, oooh  
Together we are beautiful  
Ooooh, oooh, oooh

And if we, and if we stay  
Beautiful, beautiful  
Together we are beautiful, beautiful  
Together we are beautiful, beautiful  
Together we are beautiful, beautiful

Who we are  
What we are  
Together we are beautiful  
All we are

Where we are  
Together we are beautiful

Uuuh, beautiful  
Together we are beautiful  
Uuuh, beautiful  
Together we are beautiful  
Beautiful, beautiful  
Together we are beautiful, beautiful  
Together we are beautiful, beautiful  
Together we are beautiful, beautiful
