

# Guide Me Home

Stanfour

Baby, when I'm far, so far from home  
I know the way to go  
Even when I'm lost  
I'm lost down low  
I know you guide me home  
You guide me home

I miss the times when it was easy  
Remember moments of the place we left behind  
Lighting fires on the beaches  
We stumbled home when morning comes  
Oh, the years go by and it feels like falling  
I close my eyes and it takes me back to you

Baby, when I'm far, so far from home  
I know the way to go  
Even when I'm lost  
I'm lost down low  
I know you guide me home  
You guide me home

You guide me home  
I know you guide me home

Left the island for the city  
Always dreaming of the California sun  
I remember it was different  
Chasing through the fields of gold  
I close my eyes and it takes me back to you

Baby, when I'm far, so far from home  
I know the way to go  
Even when I'm lost  
I'm lost down low  
I know you guide me home  
You guide me home

You guide me home  
I know you guide me home

Baby, when I'm far, so far from home  
I know you guide me home  
You guide me home
