

# Hearts Without A Home

Stanfour

Life is a drug  
And we get high  
Until the night fades into day  
And through the haze  
We'll catch the stars  
There's no tomorrow  
No yesterday

'Cause every moment  
Is perfectly golden  
When we dive into the blue  
Surfin' on your love  
Follow the sun down  
Until we're gone  
Like hearts without a home  
(All we ever needed was love)  
(To step away from the wrong side)  
(All we ever needed was love)  
(Was love)

Like hearts without a home  
He-hearts  
He-hearts  
He-hearts

Impossible  
To break our bonds  
Together we come as one

'Cause every moment  
Is perfectly golden  
When we dive into the blue  
Surfin' on your love  
Follow the sun down  
Until we're gone  
Like hearts without a home  
(All we ever needed was love)  
(To step away from the wrong side)  
(All we ever needed was love)  
(Was love)

Like hearts without a home  
He-hearts  
He-hearts  
He-hearts

Under the perfect sky  
You and me like satellites  
Oh-oh-oh  
Under the perfect sky  
We'll be like satellites

(All we ever needed was love)  
Was love! Was love!  
(To step away from the wrong side)  
Step away from the wrong side!  
(All we ever needed was love)

Was love! Was love!  
(To step away from the wrong side)  
(All we ever needed was love)  
(To step away from the wrong side)  
(All we ever needed was love)  
(Was love)

Like hearts without a home  
He-hearts  
He-hearts  
He-hearts  
Like hearts without a home  
He-hearts  
He-hearts  
Uuuhh...
