

Power Games

Stanfour

Never supposed to say
I told you so
But it feels good
When you're the one who's in the know

Am I your, your only?
It's not winning
If you're losing me
That's not a sway

Throw down all your aces
And I'll give you the benefit of the doubt
Keeping score is overrated
We don't need these power games
Trust me somehow
These power games
Ain't working now
These power games

If you love me
Act like you do love me, love me, just love me
Act like you do love me, love me

No one's ever perfect all the time
So why do we make every small mistake a crime?

Does this make you happy?
It's not winning
If you're losing me
That's not fair play

Throw down all your aces
And I'll give you the benefit of the doubt
Keeping score is overrated
We don't need these power games
Trust me somehow
These power games
Ain't working now
These power games
Trust me somehow

Trust me some more

Throw down all your aces
And I'll give you the benefit of the doubt
Keeping score is overrated
We don't need these power games
Trust me somehow
These power games
Ain't working now
These power games

Trust me somehow
These power games
Ain't working now
These power games

If you love me
Act like you do love me, love me, just love me
Act like you do love me, love me
