

# Won't Break Me

Stanfour

Cut down the rope  
That tight leash on hope  
Cause I see through you and your scheme now

You led me on  
Denied all I wanted  
I never thought you'd go that way

Say what you wanna, say what you need to, you won't break me  
Say what you wanna, say what you have to, say what you gotta, you won't break me

I shone a light so  
You just might find  
Your way in the dark  
You've grown with me

Your wounds are self inflicted  
Your fate is scripted  
I tried to protect you

Say what you wanna, say what you need to, you won't break me  
Say what you wanna, say what you have to, say what you gotta, you won't break me

Uuuh, uuuh...  
Say what you wanna say  
Say what you've gotta say  
Say what you have to say

I shone a light so  
You just might find  
Your way in the dark  
You've grown with me

Your wounds are self inflicted  
Your fate is scripted  
I tried to protect you

Say what you wanna, say what you need to, you won't break me  
Say what you wanna, say what you have to, say what you gotta, you won't break me

Uuuh, uuuh...  
Say what you wanna say  
Say what you've gotta say  
Say what you have to say

Say what you wanna say  
Say what you've gotta say  
Say what you have to say
