

# Digital Rain

Star One

Something is not right here  
it's wracking my mind  
it's all around me, I feel it inside  
like i'm locked in some prison  
and my world is a lie  
chills my emotion, blinding my eyes

Let go of your anger, empty your mind  
return to your senses, accept what you find  
you are here for a reason  
cut through these lies  
lives are in danger, open up your eyes!

Reach for the answer - digital rain  
take your chances and taste the pain

[Russell Allen & Floor Jansen]:  
open up your mind  
don't trust your senses  
you have been blind - digital rain

Awaken the sleeper - digital rain  
dig down deeper and break the chain

[Russell Allen & Floor Jansen]:  
let the truth flood in  
tear down your fences  
the search begins - digital rain

I've entered the real world, I know what to do  
the search is over, the prediction is true

Many millions of people exploited like slaves  
but you can release them  
from their digital graves

Let go of your anger  
empty your mind  
return to your senses  
accept what you find  
you are here for a reason

Open up your mind

Cut through these lies

Don't trust your senses

Lives are in danger

you have been blind

Open up your eyes

digital rain

I've entered the real world

awaken the sleeper  
I know what to do  
digital rain  
the search is over  
dig down deeper  
the prediction is true  
and break the chain  
many millions of people  
let the truth flood in  
exploited like slaves  
tear down your fences  
can release them  
the search begins  
from their digital graves  
DIGITAL RAIN!
