

Will you touch me?
Love my body?
Man, you're out of sight
Get to know you
Let me blow it
Baby, love you right

I'm the one that knows you
I'm the one that makes it right
Come on, baby, need me
Can't take no more teasin'

Come on, sleaze me
Loving's easy
Baby's freaky nice
Your skins calling
My sweat's falling
Feeling right tonight

I'm the one that knows you
I'm the one that makes it right
Come on, baby, need me
Can't take no more teasin'
I'm the one that knows you
I'm the one that makes it right
Come on, baby, need me
Can't take no more teasin'

Feel your love

I'm the one that knows you
I'm the one that makes it right
Come on, baby, need me
Can't take no more teasin'
I'm the one that knows you
I'm the one that makes it right
Hurry up, and need me
Can't take no more teasin'

I'm the one who knows you
I can't take no more teasin', no
I'm the one who knows you
I'm the one who makes it right
