

Death By Amplifier

Starbenders

We're back we're here forever
We're back we're here whatever

All on my own
Lonely devil
Follow my bones tonight
Come on all you rebels
Get out the cold
Step into the chapel
Saved you a seat
Right next to me

We're back we're here whatever
You're garage, I'm a snob whatever
Psycho billy ce soir whatever
We're back we're here

Death by amplifier
Listen to the voices
Join us in the streets tonight
Make the right choices

Alright, I see how it's gonna be
You listen to cassette tapes and you're too good for me
I ain't about taking inventory
Ain't saying I'm better
I still like CDs and MP3s

We're back we're here whatever
You're garage, I'm a snob whatever
Psycho billy ce soir whatever
We're back we're here

Death by amplifier
Listen to the voices
Join us in the streets tonight
Make the right choices
Death by amplifier
Listen to the voices
Join us in the streets tonight
Make the right choices

Everybody up front, together
We're in this shit forever
Everybody up front, together
We're in this shit forever
