

Downtown

Starbenders

Stay out all night
I'm fucked up again, and ready to fight
I ain't been trained
Got too many issues, and not enough brain

Roll me over, Romeo
That's my shit on the stereo
Take me home
T-tranquilize my heart with rock'n'roll

Daddy stays out all night
And when he comes home, mama's ready to fight
Yet another firestorm feeling like shit
I was ever born, 'till I hit the floor

I ain't too tame
After all these years I'm still the same
Don't let go
I act like tough, when I'm comfortable

Daddy stays out all night
And when he comes home, mama's ready to fight
Yet another firestorm feeling like shit
I was ever born, 'till I hit the floor

You only really want me, when you're down
You only really want me, when you're down-town
Only really want me
You only really want me, when you're down
You only really want me, when you're down-town
Only really want me

Daddy stays out all night
And when he comes home, mama's ready to fight
Yet another firestorm feeling like shit
I was ever born
Daddy stays out all night
And when he comes home, mama's ready to fight
Yet another firestorm feeling like shit
I was ever born, 'till I hit the floor

'Til I hit the floor
