

Getting Harder

Starbenders

I'm paranoid
I got holes in my brain
So we can't be friends
There's no point in you trying
Talk to myself, like I'm sick
It's too hopeless
We can't be friends
I'm too sick it's so hopeless

We are, we are, we are
Not your enemy
We are, we are, we are
The same frequency

Can't be friends it's too hopeless
Can't be friends it's too hopeless

Freak in the streets
I can hear what they're saying
Walk up on me like I'm lost
What's the problem
Call off your hounds
They been running their mouths
I'm a freak in the streets
And I know what you're thinking

Life keeps gettin' harder
Dragging me to the ground
Don't wanna be a martyr
Gotta turn it around

Can't be friends it's too hopeless
Can't be friends it's too hopeless
It's too hopeless
We are, we are, we are
Hopeless
It's too hopeless

I'm paranoid
I got holes in my brain
So we can't be friends
There's no point in you trying
Talk to myself, like I'm sick
It's too hopeless
We can't be friends
I'm too sick, it's so hopeless

We are, we are, we are
Not your enemy
(Not your enemy)
We are, we are, we are
The same frequency
(We're all the same, we're all just the same)

Life keeps getting harder
Dragging me to the ground
Woo!

Don't wanna be a martyr
Gotta turn it around and around and around

Can't be friends it's too hopeless
Can't be friends it's too hopeless
We are, we are, we are hopeless
It's too hopeless
Can't be friends, hopeless
