

## No One Listened

Starbenders

Once upon a time, didn't have my truth  
Cause nobody believes little girls with proof  
Bringing on the consequences  
Prison yards that had no fences  
Don't care, life's not pretty  
Countin bars and rippin 60's  
If you're pissed then sing it with me

We're mad cause no one listened  
We scream and you just glisten  
We're mad cause no one listens  
All my Zodiac sing it with me  
We're mad cause no one listened  
We scream and you just glisten  
We're mad cause no one listens

Nobody can tell you who you're s'posed to be  
You gotta leave it all behind if you wanna be free  
Break down the walls so you can breathe  
Break down the walls so you can leave home  
Trust your instincts  
When you're 16  
I know you're pissed, so sing it with me

We're mad cause no one listened  
We scream and you just glisten  
We're mad cause they don't LISTEN  
ZODIAC! Are you with me?!  
We're mad cause no one listened  
We scream and you just glisten  
We're mad cause no one listens  
All my Pisces sing it with me  
Said I'm too much but I'm just Kimi!
