

Touch

Starbenders

Keep it so cool, I know you want me to stay
Follow your eyes right back to my place
It's pretty cute that you think you're in charge
Vi-o-let you in

I'm getting hot, I don't want you to stop
Break down the door, and I'll give you the tour
My secret place, give you a taste
Vi-o-let you in

Take it off!
Strip me down!
You're so strong
Rock and roll hard on

I can't stop dreaming about your
I can't stop thinking about your face
Think it's time we touch
I think it's time we...

I'm in the throes of this, maybe I'll drown
You're everything I dreamt, torment me now
Electric fur is making me purr
Hit my knees and pray

Make me submit, show me who's boss
Winter in your arms covered in frost
Deep in the forest, now, you're already lost
Hit your knees and pray

Take it off!
Strip me down!
You're so strong
Rock and roll hard on

I can't stop dreaming about your
I can't stop thinking about your face
Think it's time we touch
I think it's time we...
I can't stop dreaming about your
I can't stop thinking about your face
Think it's time we touch
I think it's time we...

I can't stop dreaming about your
I can't stop thinking about your face
Think it's time we touch
I think it's time we fuck
I can't stop dreaming about your
I can't stop thinking about your face
Think it's time we touch
I think it's time we...
