Zero

Starbenders

If you got the answers, drinks on me
50 million likes, and I can't see
Take him out back, he's in misery
Another zero

Talk a lot of shit, but you bite the hand
Feeding on the innocent, burning their land
Moving your lips, falling in on the plan
Another hero, 'nother hero
Alright!

Running around, we're in ecstasy
If you gonna die young, you ain't like me
I'm gonna live forever, wait and see
I'm not a zero

Heat!
Wanna feel your body
Heat!
Twist around the sheets
Come on, baby!
Baby, baby, please!
It's strange, when I hear you call my name
15 minutes of fame
Never be the same
Never be the same

All the dirty dancers love my boys
If you know another prancer, bring the noise
Shake those hips, when I move my lips
You're my zero

Everyone knows you're a criminal
I don't care, 'cause you bring that pole
Keep moving your hands down, nice and slow
Be my hero, be my hero

Heat!
Wanna feel your body
Heat!
Twist around the sheets
Come on, baby!
Baby, baby, please!
It's strange, when I hear you call my name
15 minutes of fame
Never be the same
Never be the same

Heat!
Wanna feel your body
Heat!
Twist around the sheets
Come on, baby!
Baby, baby, please!
It's strange, when I hear you call my name
15 minutes of fame
Never be the same

Never be the same

Alright!
