

# I Don't Need You

Starcrawler

I'm stuck inside this tiny room  
I've stood for hours waiting here for you  
I was filled with doubt I was getting played  
My eyes start to close, then my mind caved

I don't need you, but you want me to  
I don't need you, but you want me to  
I don't need you, but you want me to  
I don't need you, but you want me to  
But you want me to

Thought I'd be down but I seemed to be fine  
I'm on my own but I've made a few dimes  
Still in love but I feel that I've grown  
You only show up when you wanna bone

I don't need you, but you want me to  
I don't need you, but you want me to  
I don't need you, but you want me to  
I don't need you, but you want me to  
But you want me to

I don't need you, but you want me to  
I don't need you, but you want me to  
I don't need you, but you want me to  
I don't need you, but you want me to  
But you want me to
