Learn To Say Goodbye

Starcrawler

Where did we go wrong
Was it all my fault
Need to catch my breath
Cus it almost stopped
Wish I had the chance to press restart
And never drift apart
You'd never drift apart

You said
Oh, don't leave me here
The lights went out and I just kept on dreaming
Did you stop believing?

They told me to let it go
Just let you go
But I said no
Yeah, I said no

No phone call
Yeah, its all my fault
Now your times run out
And the lines been crossed
Put your roses down to let them dry
And learn to say goodbye
You should learn to say goodbye

You said
Oh, don't leave me here
The lights went out and I just kept on dreaming
Did you stop believing?

They told me to let it go
Just let you go
But I said no
Yeah, I said no

There's no one to let you down
No one to save you now

I'm too tired to try anymore
And I've heard enough for now
And then you say

Oh, don't leave me here
The lights went out and I just kept on dreaming
Did you stop believing?

They told me to let it go
Just let you go
But I said no
Yeah, I said no

Oh, don't leave me here
Don't leave me here
Don't leave me here, believing
