

## She Said

Starcrawler

She said she didn't wanna play  
I didn't want it any other way  
So I left, pulled myself up off the floor  
And now I can't go back there anymore

Please, please, come back to me  
I don't care if you even like me  
Just please, please save me from myself  
Don't wanna be alone and I don't want nobody else

She heard those voices in my head  
They get louder every time I go to bed  
All I can say is I don't feel like myself  
And all I wanna be is anybody else

So please, please, come back to me  
I don't care if you even like me  
Just please, please save me from myself  
Don't wanna be alone and I don't want nobody else

Black cherries are never gonna taste the same  
Red lipstick's always gonna leave a stain  
And I've been lying and I've been lying to you  
And I don't know what I'm going to do

So please, please, come back to me  
I don't care if you even like me  
Just please, please save me from myself  
Don't wanna be alone and I don't want nobody else  
Please, please, come back to me  
I don't care if you even like me  
Just please, please save me from myself  
Don't wanna be alone and I don't want nobody else
