

# Stranded

Starcrawler

Green light, black night, no one knows  
Looking for the answers in an empty row  
I can't go nowhere, but it seems like I always do  
Everybody seems to have a place to go  
I'm just driving looking for a home  
You turned into me like a dream that I thought I knew  
But now I wanna be with you

Stranded on the side of a one-way street  
The stars in her eyes won't shine on me  
Whisper in the night hoping someone sees  
Shine on me, shine on me  
Stranded on the side of a one-way street  
The stars in her eyes won't shine on me  
Whisper in the night hoping someone sees  
Shine on me, shine on me

I met a racetrack girl at a bus stop  
Was running from someone, but she says she's not  
Her button nose was cold and her eye was black and blue  
Gets no sleep, so she used my bed  
Thought she'd have a room and a newlywed  
You turned into me like a dream that I thought I knew  
But now I wanna be with you

Stranded on the side of a one-way street  
The stars in her eyes won't shine on me  
Whisper in the night hoping someone sees  
Shine on me, shine on me  
Stranded on the side of a one-way street  
The stars in her eyes won't shine on me  
Whisper in the night hoping someone sees  
Shine on me, shine on me

Oh, won't you shine on me?  
Shine on me  
Oh, won't you shine on me?

Stranded on the side of a one-way street  
The stars in her eyes won't shine on me  
Whisper in the night hoping someone sees  
Shine on me, shine on me  
Stranded on the side of a one-way street  
The stars in her eyes won't shine on me  
Whisper in the night hoping someone sees  
Shine on me, shine on me

Oh, won't you shine on me?  
Shine on me  
Oh, won't you shine on me?
