

Thursday

Starcrawler

I keep waiting for a time to see you
You're always on my mind
Sometimes I think I'll need you
But in the end I'll find

We will never fall in love again
I knew our day was gonna end
You always leave me with nothing
We will never fall in love again

Pick up your telephone, hold me to your ear
Am I worth anything at all, don't leave me here

We will never fall in love again
I knew our day was gonna end
You always leave me with nothing
We will never fall in love again

We will never fall in love again
I knew our day was gonna end
You always leave me with nothing
We will never fall in love again
