## **I Need A Father**

Hold me somebody Don't let me be alone Love me, stay with me I am dying to be known My heart cries out

I need a Father Whose love will never fail me A friend like no other Whose trusted arms will hold me I need a Father

I am wounded But I tuck the pain away Free me, heal me I don't want to be afraid My heart cries out

Here's my heart Be tender, please Let me know your love for me Here's my heart I'm on my knees I will trust 'Cause I believe

You are my Father Your love will never fail me A friend like no other Your trusted arms will hold me You are my Father Starfield
