

When we last talked you were on your back
12 years gone and 12 years trapped
And I told you your mistakes
And you made me realize
That everyone can crash

Everyone can crash

When we last talked I was starting a fight
Two long years I thought you ruined my life
And I told you your mistakes
And you made me realize
That everyone can crash

Everyone can crash

And I told you your mistakes
And you made me realize
That everyone can crash

And I saw all my mistakes
And it made me realize
That everyone can crash

Everyone can crash
Everyone can crash
Everyone can crash
Everyone can crash
Everyone can crash
Everyone can crash
