

Hey, Are You Listening?

Starflyer 59

From the very start
My eyes drifted to where you are
I wear my heart
On my sleeve for anyone to see

Hey, are you listening?
Are you near or far?
Now I just don't know who you are
And I don't care anymore

For the longest time
I didn't see your name. Did you disappear?
Away from here
I still don't know what you were searching for

Hey, are you listening?
Are you near or far?
Now I just don't know who you are
And I don't care anymore

Hey, are you listening?
Are you near or far?
Now I just don't know who you are
And I don't care anymore

Hey, are you listening?
Are you near or far?
Now I just don't know who you are
And I don't care anymore
