

## Smoke

Starflyer 59

Smoke  
It runs through my veins  
It's burning my eyes  
Controlling my brain

Why do I do what I do, I don't know man

I'm alright I think it's just I'm moving on  
And maybe my star's not bright but it's still on it's still on

Smoke  
It takes up my days  
It fills up my nights  
Controlling my brain

Why do I do what I do, I don't know man

I'm alright I think it's just I'm moving on

And maybe my star's not bright but it's still on it's still on

I'm alright I think it's just I'm moving on  
And maybe my star's not bright but it's still on it's still on

Smoke  
It's just smoke  
Smoke  
It's just smoke

I'm alright I think it's just I'm moving on  
And maybe my star's not bright but it's still on it's still on
