

## The Contest Completed

Starflyer 59

All the time we traveled  
For all it meant to me  
Was built to last for new endeavors  
Would you listen to me  
And don't look back on your trials  
Remember when it was good in '92  
A different point of view

It's bigger dreams that make them leave  
Oh my, look at what it's done to me

It feels like a knife

It's just I needed to be here  
The contest completed  
Just leave it and come to  
I've beaten no one

When all the news has traveled  
For once could you listen to me  
And don't look back  
They're only needs
