

## Wicked Trick

Starflyer 59

Cold as ice you are you're draining  
My love my love my love

With your control you've stranded  
My love my love my love  
Over

I've got cold sweats in my head  
If I talk then I'll be dead  
Now I'm down on my knees  
A wicked trick to play on me

Can you help me please don't go  
Leave me in the cold  
It's just too draining when you've stranded

My love my love my love  
Over

I've got cold sweats in my head  
If I talk then I'll be dead  
Now I'm down on my knees  
A wicked trick to play on me

A wicked trick to play on me  
A wicked trick to play on me  
A wicked trick to play on me
