

One Of One

Starley

I'm just trying to hold on now
Yeah it's hard that I think about
And it hurts much more, I know I messed it up
Oh, the love you gave was something from above
I don't know what I was thinking
I wouldn't blame you if you hate me
All along you tried to save me
And now I know that I was wrong

You're one of one
One of one
The best I ever had
You're one of one
One of one
And that's what makes me sad
Who am I supposed to call?
When you probably don't even think about me at all
One of one
One of one
The best I ever had

Wanna know if you think of me
'Cause it's crushing me so wholly
And on nights like this I wonder where you are
As I drink among these strangers in this bar

'Cause you're one of one
One of one
The best I ever had
You're one of one
One of one
And that's what makes me sad
Who am I supposed to call?
When you probably don't even think about me at all
One of one
One of one
The best I ever had

I try and I try
But it kills me slowly
Messing with my vibe
But I did it to me
I get high, I get high
But my knees are still weak
Could've had it all for keeps
I try and I try
But it kills me slowly
Messing with my vibe
But I did it to me
I get high, I get high
But my knees are still weak
Could've had it all for keeps

'Cause you're one of one
One of one
The best I ever had
You're one of one

One of one
And that's what makes me sad
Who am I supposed to call?
When you probably don't even think about me at all
One of one
One of one
The best I ever had

The best I, best I
Mm, oh
The best I ever had
