

Welcome to the heat academy

There's nothing I can do  
There's nothing I can say  
'Cause she's already inside  
She's already in my DNA

D. N. A.

It don't change  
She's deep down inside

D. N. A.

It don't change  
She's deep down inside

Can't get her off my brain or outta my mind  
A nigga knows right from wrong but she blurs the line  
Got her in my veins, I'm just tryna to survive  
How come I can't see it coming? But like that say love is blind.  
No but the fact that she's actually not just here for my time  
I got a heart made of gold, and she's here to mine  
She's so poison but I want more  
No I can't stop. I open Pandora's Box  
Now I'm so outta my mind; she got me tied in a knot  
She got me going in circles like all three hands on a clock  
And I can't help it. I know I know better  
The Devil wears Prada I plan to undress her

You probably not gon' admit it, to the point that you forgot that you  
did it

Lying to yourself Can't get over it  
Planting seeds down on our ovaries  
On the road to riches like a motorist, yeah  
Every show it's a different bitch  
Excess baggage on a "me go" trip  
Ain't that somebody that you use to know?  
You don't think she's noticing Pregnant you don't even know it  
Cause she ain't showing it yet  
It ain't like you been payin' attention to her  
Just finished 'bout to take off on a different tour  
Thinks she's in love 'cause ya'll live together  
And everything she ask for you give it to her  
But your bullshit is really getting to her  
Now you asking what's wrong with' her  
But you gettin' to it  
More of the secret plus she's sick of your shit  
When it hard nights by her self  
Ain't his name Schwarzenegger he's the terminator  
No call or nothing, another five year text  
She figured she was doing you a favor
