

Bye

starry cat

Lights are out and my eyes are shut
When I stand, it hurts too much
No matter what I do, you know it's true
When I dream, I dream of you
When I don't have you, I'm losing my mind
I wish I was with you all of the time
When I don't have you, I'm losing my mind
I wish I was with you all of the time

Why won't you stay with me?
Why won't you stay with me?
Why won't you stay with me? (No matter what I do, you know it's true)
Why won't you stay with me? (When I dream, I dream of you)
When I don't have you, I'm losing my mind
I wish I was with you all of the time
When I don't have you, I'm losing my mind
I wish I was with you all of the time
