Autobiography (When I Found You)

Stars Go Dim

If songs were books this would be my autobiography
True story of a fool, a fool who fell for anything
Anything that promised it would fill this void inside of me
If songs were books this would be my autobiography

Money only left me wanting more
Status never got me off the floor
There's only one who's never let me down
Now that's what I sing my songs about

I found love
I found truth
I found joy
When I found You
I found freedom
A life made new
I found me, yeah, when I found You
When I found You
When I found You

If songs were feelings well then I'd call this one happiness
Turns out all I needed was the love You came to give
There's nothing else I've tried that ever made me feel like this
If songs were feelings well then I'd call this one happiness

Money only left me wanting more
Status never got me off the floor
There's only one who's never let me down
Now that's what I sing my songs about

I found love
I found truth
I found joy
When I found You
I found freedom
A life made new
I found me, yeah, when I found You
When I found You
When I found You

Seek and you will find
Child lift up your eyes
No let down this time
Seek and you will find

Seek and you will find
Child lift up your eyes
No let down this time
Seek and you will find

Seek and you will find
Child lift up your eyes
No let down this time
Seek and you will find

I found love
I found truth

I found joy
When I found You
I found freedom
A life made new
I found me, yeah, when I found You
When I found You
When I found You
When I found You
When I found You
