

Love That Won't Let Go

Stars Go Dim

here's a promise we've been given
More certain than the stars
And in his light we are living
It's written on our hearts

Wherever we've been, wherever we go,
With every step, every road,
You're holding us close with love that won't let go

Love that won't let go...
Love that won't let go...

It's in your arms that we find healing
In your arms we will stay
And in your hands we find our meaning
Your the love that never fades

Wherever we've been, wherever we go,
With every step, every road,
You're holding us close with love that won't let go.
We feel in our hearts, we feel in our bones,
We're never too far, never alone,
You're holding us close with love that won't let go.

Love that won't let go...
Love that won't let go...

You won't give up on us
You hold us in your love
You won't give up on us
I know, I know
You won't give up on us
You hold us in your love
You won't give up on us
I know

Wherever we've been, wherever we go,
With every step, every road,
You're holding us close with love that won't let go.
We feel in our hearts, we feel in our bones,
We're never too far, never alone,
You're holding us close with love that won't let go.

Love that won't let go...
Love that won't let go...
Love that won't let go...
Love that won't let go...
