

What Your Love Can Do

Stars Go Dim

I don't wear my heart on my sleeve
Won't ever trust easily
And I don't like asking for help
But You showed me the way it could be
Doing it differently
Living outside of myself

When life gets heavy
Your love will always

Give me something to trust in
Give me hope that I know is true
That's what Your love can do
That's what Your love can do
Patch me up when I'm broken
Shape my heart, make me look like You
That's what Your love can do
That's what Your love can do

That's what Your love can do
That's what Your love can do
You make the broke brand new
That's what Your love can do

Rest, that's not a word that I knew
Back before me without You
But now it's a part of my soul
And change, it's written all over my face
Call me a picture of grace
Yeah, You're never letting me go
You...

Give me something to trust in
Give me hope that I know is true
That's what Your love can do
That's what Your love can do
Patch me up when I'm broken
Shape my heart, make me look like You
That's what Your love can do
That's what Your love can do

That's what Your love can do
That's what Your love can do
You make the broke brand new
That's what Your love can do

When life gets heavy
Your love will always
Your love will always

Give me something to trust in
Give me hope that I know is true
That's what Your love can do
That's what Your love can do
Patch me up when I'm broken
Shape my heart, make me look like You
That's what Your love can do

That's what Your love can do

That's what Your love can do
That's what Your love can do
You make the broke brand new
That's what Your love can do

That's what Your love can do
That's what Your love can do
You make the broke brand new
That's what Your love can do
