

## Patterns

## Stars

We went swimming I was drowning  
You caught my eye I could tell  
You couldn't catch your breath

What I wouldn't do for you  
What we couldn't get through  
You're beautiful when you cry

And what you might have done to me  
We never let each other off easy  
But we don't do goodbyes

Lightning strikes twice in my life  
The thunder rolls I get scared lying in my bed  
Catch my head

What I wouldn't do for you  
What we couldn't get through  
You're beautiful when you cry

And what you might have done to me  
We never let each other off easy  
But we don't do goodbyes

If I could count up every mile we passed  
How did we even make this last  
We stumbled through the doors  
And what I might have done to you  
Our memory splits in two cause we don't do goodbye

We're gonna paint the road  
A prettier shade of gold  
We're gonna take the time  
And you're going to be mine  
We're gonna change the rules  
Bury that cross for good  
Watch the garden grow  
A bended knee for hope

We're gonna paint the road  
A prettier shade of gold  
We're gonna take the time  
And you're going to be mine  
We're gonna change the rules  
Bury that cross for good  
Watch the garden grow  
A bended knee for hope

Hope hope hope
