

This Changes Everything

Stars

All the places that I go
Never help to get me home
Am I lost in the shadow
Am I close to shore

I can't just look in your eyes
I can't lose myself in the night
To get by
To get by

Will we fix this
Will we fix this
We're running out of time
Will we fix this
Will we fix this
We're going out of our minds
Will we fix this
Will we fix this
Always waiting

Every hour that goes past
Doesn't help to bring it back
Are we stuck in the dusk
Will we rush till dawn

I'll stand at the border tonight
I'll stand at the border tonight

Will we fix this
Will we fix this
We're running out of time
Will we fix this
Will we fix this
We're going out of our minds
Will we fix this
Will we fix this
Always waiting

Can we fix this
Will we fix this
We're running out of time
Can we fix this
Will we fix this
We're going out of our own minds
Can we fix this
Will we fix this
I'll be waiting
Will you be waiting

I'll be waiting
Will you be waiting

Will you be waiting
I'll be waiting
