

White Light

Starsailor

There's a white light that carries me home
Helps me focus when I am alone
Keeps on teaching me how to be loved
And to love
And to love

Onwards to forever
Our minds belong together

She's the good light that carries me on
Helps me focus on where I've gone wrong
Now you've reached me
Its time to forgive and forget
And forget

Onwards to forever
Our minds belong together
Onwards to forever
Our minds belong together

Tonight, this land
Belongs to me
The shifting sands
The shining seas

Onwards to forever
Our minds belong together
Onwards to forever
Our minds belong together

Tonight, this land
Belongs to me
The shifting sands
The shining seas

Won't you help my soul to grow?
To heal, its all that I know
