

# OTHERWORLDLY

Starset

Otherworld, otherworldly  
Otherworld, otherworldly

You're like an angel's song  
I'm on my knees waiting for the sound  
Stuck in a world gone wrong  
So lift me up, I'll never let you down  
Light like a brand new day  
Surreal and astounding  
The site of a mystery  
But I'm here on the ground

Bring me to the edge and let me stay  
Pull me in, I'll never push away  
Searching for the words that I can say  
How it feels when you're with me

Otherworld, otherworldly  
Send the light then, I'll be waiting  
Otherworld, otherworldly  
I come alive when you are with me  
Otherworld, otherworldly  
Far away from all the mayhem  
Otherworld, otherworldly  
At the speed of light and beauty

Supernatural  
Like an oracle  
When darkness starts to call  
You'll find me after all  
A face that could emanate  
A stare like a spotlight  
If you guide me into your space  
I'll be there at the first light

Otherworld, otherworldly  
Send the light then, I'll be waiting  
Otherworld, otherworldly  
I come alive when you are with me  
Otherworld, otherworldly  
Far away from all the mayhem  
Otherworld, otherworldly  
At the speed of light and beauty

I wanna become lucid  
Clear just like a window  
I tried so hard to open up  
And show you what's behind it  
But you didn't need to hear me  
'Cause you were supraluminal  
Knew me without an uttered word  
You always seemed to know me  
An ethereal feeling  
That I cannot describe  
The way that I feel you  
Something that I cannot hide  
How you illuminate

In a profound way, I feel your space  
I can't explain the place you're taking me

Otherworld, otherworldly  
Send the light then, I'll be waiting  
Otherworld, otherworldly  
I come alive when you are with me  
Otherworld, otherworldly  
Far away from all the mayhem  
Otherworld, otherworldly  
At the speed of light and beauty
