

# Ricochet

Starset

And we were born  
Over the world  
We were flying through the satellites  
We had a hold of the lightning strikes  
When we should've been afraid of heights  
And I was trying just to get you  
And now I'm dying to forget you  
Cause I knew I couldn't catch you  
So I light the sky  
And I fell behind

We were one in the same  
Running like moths to the flame  
You'd hang on every word I'd say  
But now they only ricochet  
We were falling away  
You left me with a bittersweet taste  
But when I sent my heart your way  
It bounces off the walls you made  
Ricochet

If I was whole  
I'd turn right now  
I'd forget it and just walk away  
Cause I've been told  
That I'm dragging it out  
But I've been dying just to see your face  
And all I wanted was to say "goodbye"  
Into the fortress and you're stuck behind  
And in the silence now I realize  
That after all I built the wall

We were one in the same  
Running like moths to the flame  
You'd hang on every word I'd say  
But now they only ricochet  
You were falling away  
You left me with a bittersweet taste  
But when I send my heart your way  
It bounces off the walls you made  
Ricochet

All these broken souls  
They never make me whole  
They don't, they don't know my heart  
They don't know my heart

All these broken souls  
Each one more beautiful  
They don't, they don't know my heart  
They don't know my heart

I'll send out my soul  
To worlds more beautiful  
But they won't, they won't know my heart  
It's the darkest part

We were one in the same  
Running like moths to the flame  
You'd hang on every word I'd say  
But now they only ricochet  
You were falling away  
You left me with a bittersweet taste  
But when I send my heart your way  
It bounces off the walls you made  
Ricochet
