

Silver Cloud

State Champs

Say something that's interesting
Cuz this conversation is irritating
Another step through the same
Revolving door

And lately
I take something to turn the key
But the stimulation
Has kinda faded
I been thinking
That's just the way things go

Stuck in the same spot
Wanting what they got
I'm not in my heart, I'm in my head

So can we get back to
Basics somehow
To staying up and misbehaving
Without thinking thinking
Cuz it doesn't phase me
When it's driving me crazy
Been standing underneath a silver cloud
But I don't feel it raining now
But I don't feel it raining now
But I don't feel it raining now

Take it back to clarity
When the hat was backwards
I found a pattern
Every town
Where we found a place like home

There was no time to waste
While dreaming wide awake
Until the mountains move
There's more to prove
I'm always

Stuck in the same spot
Wanting what they got
I'm not in my heart, I'm in my head

So can we get back to
Basics somehow
To staying up and misbehaving
Without thinking thinking
It doesn't phase me
When it's driving me crazy
Been standing underneath a silver cloud
But I don't feel it raining now

All around me
Can't keep counting
On the things worth waiting for
But it's so hard to ignore

Changing colors
Growing duller
Who am I to stay the same
When the world don't owe me anything

So can we get back to
Basics somehow
To staying up and misbehaving
Without thinking thinking
It doesn't phase me
When it's driving me crazy
Been standing underneath a silver cloud
But I don't feel it raining now
But I don't feel it raining now
But I don't feel it raining now
