

Distant Omen

State Faults

I'm holding my last breath
Swallowing artifacts
Choking down omens
Spitting the curses that hex my head
Phantom lover
Can you feel my pulse?
Under a Mars red sky
Can you find my pulse?

No understanding
Found in the tragedy
Eases the burden
Reflecting on everything we've lost
In the dead of the night
I have lost my pulse
Vacant sky
I can't find my pulse

As within, so without
Distant effigy
Lighting up the way for me
Mangle the prayer
As it blooms from your mouth
Manifesting energies
Dancing deep inside of me
Tangle the maypole
Pulling the strings
As within, so without
