

# Sleepwalker

**State Faults**

(Goodbye, stay gold)

We said goodbye to golden summers  
The tide was high, our dreams went under  
Holding on to our last breath we walked away  
I am left in the wake of this epiphany  
That I must walk alone  
That I am all alone

(Goodbye, stay gold)

(Goodbye, stay gold)

That my heart's a haunted home  
And it's all I've ever known
