

## Wind Song

### State Faults

Shadows grow  
Deafening  
Have I lost you?  
I'm still here  
Can you feel me?  
Please don't leave me  
Don't let go  
I can still fix me

Whirlwind cloud mouth  
Storm fronts shout out  
Candles blow out  
No light no sound  
Meaningless suffering  
Storm clouds want to swallow me  
Reach out both hands  
Hail stones rain dance  
Cold lips trembling  
Calling your name  
Meaningless suffering  
Storm clouds want to swallow me  
Shedding this suffering  
Parting the sky
