Static Dress

Hello good morning
Say bye to yesterday
Where you going, pretty lady
With that look on your face?

I felt your disease
Left blind and so weak
I raised everyone
You owe it to me

Let it go, let it go
That's all you had to say
I'm not one for many words anyway
Don't speak unless spoken to

The bottle it takes
Away the mistakes we made
I hold everything
You left this to me

So you know these dreams
I hope you know they don't float
And I'll be the savior under your waistcoat

Emergency surgery
You standing over me
I held you close
This scene's so fitting

Headstones, they prove what we once had
They prove what we once had

Let it go, let it go
That's all you had to say
I'm not one for many words anyway
Don't speak unless spoken to
