Hello good morning  
Say bye to yesterday  
Where you going, pretty lady  
With that look on your face?

I felt your disease  
Left blind and so weak  
I raised everyone  
You owe it to me

Let it go, let it go  
That's all you had to say  
I'm not one for many words anyway  
Don't speak unless spoken to

The bottle it takes  
Away the mistakes we made  
I hold everything  
You left this to me

So you know these dreams  
I hope you know they don't float  
And I'll be the savior under your waistcoat

Emergency surgery  
You standing over me  
I held you close  
This scene's so fitting

Headstones, they prove what we once had  
They prove what we once had

Let it go, let it go  
That's all you had to say  
I'm not one for many words anyway  
Don't speak unless spoken to
