

Black Star

Static-X

Figure it out, rising up
Taking it down, here it comes
Mulling it out, getting stronger
Turn it around, hit a wall, let it play out
Breathing it in, permanency
Wrecking the scene, laying lower
Breaking us in, flowing over
Waiting to bleed, throw it out, never no place

Falling apart
Yeah
Harness the spark
Yeah
Make it, pass it, comes and take it
As long as you can make it go

Yeah, yeah
Follow the black star
Holding on
And she can take you far

Losing my mind over time
Adding it up, see the signs
Take it all in, getting stronger
Take a step back, hit a wall, let it play out
What it's about, going slower
Breaking it down, dream us over
Breaking us in
Coming insane, never give up in the truth, in the middle of

Falling apart
Yeah
Harness the spark
Yeah
Make it, pass it, comes and take it
As long as you can make it go

Yeah, yeah
Follow the black star
Holding on
And she can take you far

When you live a long time
And you're adding it up
You see your verified life
Take us higher, higher, higher
So now we're losing our minds
On our way to the end
And are you taking my time
As I do it, do it, do it, do it? Yeah

Falling apart
Yeah
Harness the spark
Yeah
Make it, pass it, comes and take it
As long as you can make it go

Yeah, yeah
Follow the black star
Holding on
And she can take you far

Yeah, yeah
Follow the black star
Holding on
And she can take you far
