

Dark Place

Static-X

Let's go
Let's go

Soul creation, devastation
All in wait for you
Desperation, isolation
All in wait for you

Now you're searching for
Something to take away from
Tomorrow's sorrow

Hey
I know that I want to remember
Surrender to your isolation
Your pain is your constant reminder
I'll take you out of this dark place
Let's go

Your creation, annihilation
All in wait for you
Suffocation, isolation
All in wait for you

Now you're searching for
Something to take away from
Tomorrow's sorrow

Hey
I know that I want to remember
Surrender to your isolation
Your pain is your constant reminder
I'll take you out of this dark place
Let's go

Let's go
Let's go

Now you're searching for
Something to take away from
Tomorrow's sorrow

Hey
I know that I want to remember
Surrender to your isolation
Your pain is your constant reminder
I'll take you out of this dark place
Let's go

Hey
I know that I want to remember
Surrender to your isolation
Your pain is your constant reminder
I'll take you out of this dark place
Let's go
