

From Heaven

Static-X

My life's a disease
That could always change
With comparative ease
Just given the chance
As prospects diminish
As nightmares swell
Some pray for Heaven
While we live in Hell
My life's a disease
My life's a disease

Don't you get you're
From Heaven?
Don't waste it
Don't you get you're
From Heaven?

My life is the earth
Twitch muscle and spade
Wait for the worth
Digging for just one chance
As prospects diminish
As nightmares swell
Some pray for Heaven
While we live in Hell
My life's a disease
My life's a disease

Don't you get you're
From Heaven?
Don't waste it
Don't you get you're
From Heaven?
Don't waste it
Don't you get you're
From Heaven?
From Heaven?
