

My Destruction

Static-X

The road to hell is paved with blood

Dodging my destruction

Dodging my destruction

Embracing, disgracing, erasing the silence

Replace it with rage and with hate and with violence

Follow me, just follow me, come follow me, just follow me

To hell, Yea, Hell yea

Displacing, defacing, incasing the hollow

Smashed in the face and replaced it with sorrow

Swallow me, just swallow me, swallow me, just follow me

To hell, Yea, Hell yea

You're going to hell

Dodging my destruction

Dodging my destruction

Dodging my destruction

Dodging my destruction

The road to hell is paved with blood

The road to hell is paved with blood

The road to hell is paved with blood

The road to hell is paved with blood

The road to hell is paved with blood

Rape it, breed it, kill it, eat it

Crush it, fuck it, feed it, bleed it

Fake it, feed it, kill it, eat

Crush it, fuck it, breed it, bleed it

You're going to hell

Dodging my destruction

Dodging my destruction

Dodging my destruction

Dodging my destruction
