Not Meant For Me

Static-X

You think you're smart
You're not, it's plain to see
That you want me to follow
It's killing me, let's see
You've got the gall
Come take it all

The jury is coming
Coming to tear me apart
All this bitching and moaning
Come on, it's on

I'm trapped in this world
Lonely and fading
Heartbroke and waiting
For you to come
We are stuck in this world
That's not meant for me
For me

So what you got
One last shot
It seems to me
That you're not needed
Come on
It's killing me
Let's see
You've got the gall
Come take it all

The jury is coming
Coming to tear me apart
All this bitching and moaning
Come on, it's on

For me
For me
