

Glum

Statik Selektah

Statik Selektah

I lie awake in my mind's depression
I can't escape it, my mind's been stressing
I feel my fate is long lost regression
Somebody save me, Lord I've been stressing

(Oh) My mind's depression
(Oh) My mind's been stressing
(Oh) Long lost regression
(Oh) Lord I've been stressing

I'm all alone, I feel no emotion
My blood is cold and my life is frozen
My blood is cold and my life is frozen
(My blood is cold and my life is frozen)

What happened to my feelings, I don't feel none
I don't feel pain, I just feel numb
I just feel rain, I just feel glum
Every time I tell somebody I just feel dumb
The drugs don't heal but they bandage
I'm all alone and I'm damaged
Starve for some hope like I'm famished
Tryin' to stay afloat
Lately I don't speak with my family
I'm bored of plan A like a plan B
In the strip club off a Xanny
Talking with some girl named Tammy
Prolly ain't her real name
Small talk getting real lame
Finally got into some real things
Said she used to cut herself to feel real pain
And I've been on the edge too
Matter fact I'm on it right now
Started geeking in the club, they told me pipe down
And I got thrown out, wow

I lie awake in my mind's depression
I can't escape it, my mind's been stressing
I feel my fate is long lost regression
Somebody save me, Lord I've been stressing

(Oh) My mind's depression
(Oh) My mind's been stressing
(Oh) Long lost regression
(Oh) Lord I've been stressing

I'm all alone, I feel no emotion
My blood is cold and my life is frozen
My blood is cold and my life is frozen
(My blood is cold and my life is frozen)
