

# Outside

Statik Selektah

Don't like it on the outside, gotta get on the inside  
Won't you let me into your world?  
It's cold outside (Jared Evan)

Yeah, people say that we in a cold world  
I rebuttal and tell em I made her toes curl  
Cause she ain't like most girls  
She spinning on a slow twirl, understand it?  
I play with all my pussies underhanded, that's how I plan it  
Wet as Atlantis, splashing paint up on the canvas  
I masterpiece and then I vanish, I keep them famished  
Give you a taste of what a man is, she go bananas  
She bout to flood in front of camera, so call Japan up

Now I'm waiting outside in the cold  
There's no point in us trying to love  
We could conquer the world if you come  
Let's just put it aside till we're numb

Let me see what you got  
We could be where we want  
You're gonna let me take it from you  
I'm traveling to ease my state on mind  
Let's finish what's undone

Won't you let me into your world?  
It's cold outside so maybe you could  
Let me into your world  
You got what's mine so maybe you should

I been known to be last man standing  
Sipping yack while I'm screaming out fuck the world  
Let me enter your Grand Canyon  
I'm like Viagra, make the water falls like Niagra  
My swagger's like a sharp dagger make the sharks scatter  
She more flattered when I'm playing with her ozone  
Cause me and Jared got that slow tone, flow grown  
Vietnam vets will feel the stress up in they broke bones  
No matter what the world goes on, hold on

Let me see what you got  
We could be where we want  
You're gonna let me take it from you  
I'm traveling to ease my state on mind  
Let's finish what's undone

Won't you let me into your world?  
It's cold outside so maybe you could  
Let me into your world  
You got what's mine so maybe you should
