

Hidden In Me

Status Praesents

You are all my lies turned into a being
Like a nightmare but more real
Whole shit of my life's back
As you lie here naked fact
I'm just the ant on the wall
Secrets of life stealin' my sleep
Just lookin' back watch the sick world
We create

Hey I accept your law

Everytime I look at you my pulse
Goes really high if you knew my hidden dream
You would rather stay outside
I am just the ant on the wall secrets of
Life stealin' my sleep just lookin' back
Watch the sick world we create

Anything else accept my dreams soon get lost
To da fuckin' crowd it is hard 2 be alone without you
screamin' now and fuckin' loud

The candle is burning
The drops are falling
My Hands are shaking
I call this misery
