

Sleepyhead

Stavesacre

Where you been
What took so long
How much time you need
To nurse them old wounds
Say again
How you were wrong
Surprise us all indeed
As if we didn't know

Stop me if you've heard this one before
Some old dream that died on the vine
Wake yourself my sleepyhead
Shake yourself cause you can
Wake yourself my sleepyhead
Shake yourself

Let me guess
Your heart was broken
Somewhere along the way
Like no heart ever
And all the king's horses
And all the king's men
Trampled it again
And it broke forever

Stop me if you've heard this one before
Some old dream that died on the vine
Wake yourself my sleepyhead
Shake yourself cause you can
Wake yourself my sleepyhead
Shake yourself

Let us know when you wake
Let us know when you're brave
Brave enough to live
Your whole life
Everyone is waiting
For you to awake
Brave enough to live
To live

Stop me if you've heard this one before
Some old dream that died on the vine
Wake yourself my sleepyhead
Shake yourself cause you can
Wake yourself my sleepyhead
Shake yourself

'Cause you can
You can
You can
